Brand Guidelines — the mark, color, type, and voice that make every listing feel unmistakably ours.

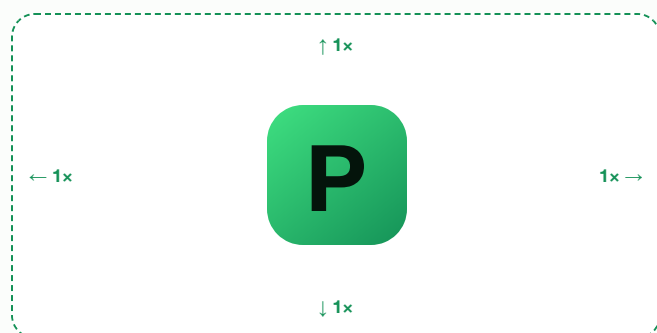

01 — THE MARK

A rounded green tile and a clean wordmark.

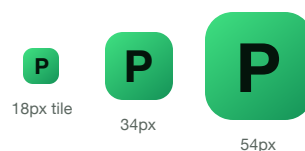

CLEAR SPACE

Keep clear space equal to the height of the “P” on all sides. Never crowd the mark with other elements.

MINIMUM SIZE

Tile no smaller than 20px (digital) or 0.25in (print). Below that, use the tile alone without the wordmark.

MISUSE — NEVER DO THIS

✗ Recolor the tile

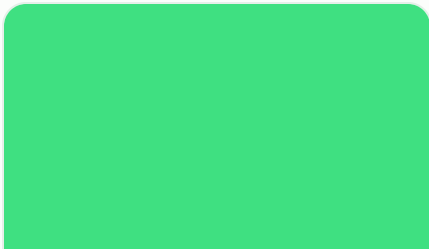

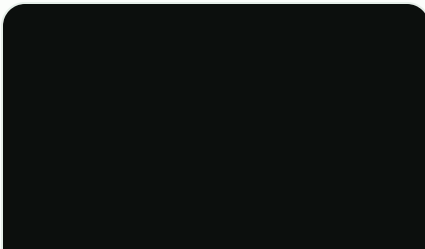

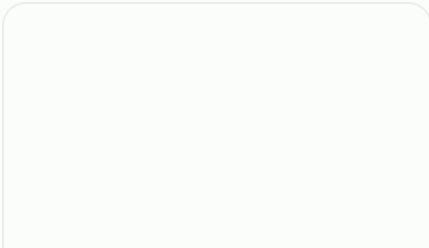

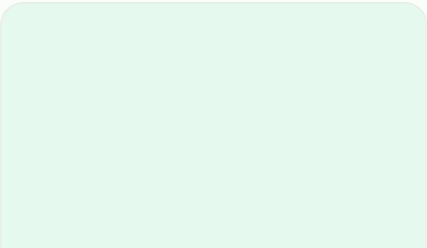

✗ Rotate or skew

✗ Change the corner radius

02 — COLOR

Live green leads. Everything else stays quiet.

		
Live Green #3FE081 · RGB 63 224 129 Primary. Accents, highlights, the bright end of the tile gradient. Use on dark backgrounds.	Green Deep #149157 · RGB 20 145 87 Text-safe green. Prices, links, buttons, the dark end of the gradient. Passes AA on white.	Ink #0C0F0D · RGB 12 15 13 Primary text and dark surfaces. Near-black with a green undertone.
		
Off-White #FBFDFB · RGB 251 253 251 Page background. Softer than pure white; pairs with the green system.	Mint Tint #E6F9EF · RGB 230 249 239 Badges, score pills, subtle panels. The only acceptable green wash.	Slate Muted #5B6660 · RGB 91 102 96 Secondary text, captions, metadata. Never for headlines.

THE GRADIENT

Tile gradient is fixed at 135°, #3FE081 → #149157. Use it only on the mark, primary buttons, and yard signs. Do not apply the gradient to text or large fills.

Spec: 54px circular headshot, name in Geist 800, title in Green Deep 700, contact in Slate Muted. 3px Green Deep left rule. No banners, no quotes, no legal disclaimers beyond the license number. Logos are text only — never paste an image of the mark into mail.

06 — VOICE & TONE

Local, clear, no jargon.

We sound like a sharp neighbor who knows the street — not a billboard. Lead with what a buyer actually feels and where they'll live, then back it with facts. Numbers are specific; adjectives are earned.

DO

- “Walk to Larkspur Elementary and the Riverwalk trailhead.”
- Name the street, the school, the coffee shop.
- Lead with the room, not the SKU. (“Vaulted family room with a gas fireplace.”)
- Use specific numbers: 2,190 sq ft, 0.21-acre lot.
- Short sentences. Active voice. Hard cuts.

DON'T

- “Stunning luxury dream home won't last!!!”
- Realtor clichés: “charming,” “must-see,” “TLC.”
- ALL CAPS or exclamation pile-ups.
- Vague superlatives with no proof.
- Insider jargon (“contingent KO,” “BOM”) in client-facing copy.
